## DEADLINE

**Deadline** for the next issue of *Today & Tomorrow,* which will cover the time period Sept. 3–16, will be **Tuesday, Aug. 23, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

**UCSF has been notified by the Office of the President that, with passage of the state budget, information is now available regarding the 1983-84 salary and benefit adjustments for University employees.**

By law, the University cannot make changes in salaries of employees represented by an exclusive bargaining agent (union) except through negotiations with that union. That is the reason for most of the exceptions listed below. At the time of this writing it is not known when negotiations will be held.

### I. SALARY ADJUSTMENTS

• **Academic Employees:**

1) *Faculty and other instructional research appointees:* Between July 1 and Dec. 31, 1983, there will be no increase in academic salary scales. Effective Jan. 1, 1984, academic salary scales will be increased by 6%. Effective April 1, 1984, an additional increase of 1% will be made. Academic merit and promotion increases will be granted effective July 1, 1983 for eligible employees. Librarians and research and teaching assistants are excepted (see below).

2) *Librarians:* Salaries for librarians will not be increased on July 1, 1983, and any increase after that will be subject to collective bargaining obligations under HEERA.

3) *Research and Teaching Assistants and Related:* Salaries for these titles will be adjusted by 3% effective July 1, 1983; by an additional 3% effective Jan. 1, 1984; and by an additional 1% effective April 1, 1984.

4) *House Staff:* Between July 1 and Dec. 31, 1983, there will be no adjustment in house staff salary scales. Effective Jan. 1, 1984, house staff salary scales will be adjusted by 6%. Effective April 1, 1984, an additional increase of 1% will be made.

• **Staff Employees:**

1) *Staff Employees not Represented by Exclusive Bargaining Agents:* Ranges for these employees will remain unchanged between July 1 and Dec. 31, 1983. Effective Jan. 1, 1984, ranges will be adjusted by an average of 6%. In addition, normal merit increases within the salary range will be granted on July 1, 1983 or Jan. 1, 1984, depending on the employee's eligibility dates.

2) *Staff Employees Represented by Exclusive Bargaining Agents:* These employees will participate in the normal merit increases within the salary range for July 1, 1983. Pursuant to the Collective Bargaining law (HEERA), adjustments in salaries, benefits, hours and working conditions, thereafter, will be subject to negotiations with the exclusive union (bargaining agent).

3) *Management Service Office Series:* Increases for this group are entirely based on merit. Most employees will receive 30% of their merit increase in the Sept. 1 check, retroactive to July 1. The remaining 70% of the increase will be effective Jan. 1, 1984. Those employees at or near the maximum of their ranges will require special handling, which is explained in a separate letter from the Personnel Office.

### II. EMPLOYER CONTRIBUTION RATES FOR DENTAL AND HEALTH INSURANCE PLANS

All employees entitled to benefits will receive the following improvements effective Aug. 1, 1983 (exception: members of the Statewide University Police Association Bargaining Unit).

• *An increase in the University's contribution to the dental plans.* The amount of the increase permits the plans to continue to be fully paid by the University. (Effective Aug. 1, 1983, California Dental Plan will replace Aetna Plan.)

• *An increase in the health plan contribution.* With the new allocation, the University contribution will increase from $71 to $88 for a single-party plan; from $133 to $160 for a two-party plan; and from $168 to $191 for a family plan.

The Benefits Office has provided information to departments regarding these increased contributions and how they relate to the Aug. 1, 1983 increases in health plan premiums.

### III. RETIREMENT PLAN EMPLOYER CONTRIBUTION RATES

Funding will be provided to continue the 1983-84 program of the up-to-$50 special Regents' contribution to retirement for the next six months (through Dec. 31, 1983). Effective Jan. 1, 1984, the cost of this up-to-$50 contribution will again be borne by employees. NOTE: For faculty, the equalization of this benefit will continue during this period.

# NEWS BRIEFS

*(Budget continued)*

This additional benefit improvement will be made for all categories of employees, both organized and unorganized, who are covered by either the PERS or UCRS Retirement Program (exception: members of the Statewide University Police Association Bargaining Unit).

For further information on salaries, academic staff should call x1881; staff, x2939. For questions on benefits and retirement call x1400.

**In April, the campus was asked for comments on a proposed rescheduling of the Christmas and New Year's holidays for 1983** for the purpose of closing the campus the week of December.

The responses received were significantly in favor of rescheduling and closing. Feedback regarding last year's experience, however, from those areas that must remain operational (Hospitals & Clinics, research labs, library, etc.) indicated that skeleton crews could not provide an adequate level of essential services. In addition, a survey of the other UC campuses indicated that all campuses with hospitals will remain open.

Therefore, in the best interests of patient care and research activities, the campus cannot close but will observe the normal Christmas holiday schedule as follows: Friday, Dec. 23; Monday, Dec. 26; Friday, Dec. 30; and Monday, Jan. 2. Spring holiday will be observed on Monday, March 19.

**A "Campus Compendium," listing campus resources, benefits, and programs, will be mailed on campus to all staff employees** in early August. The idea for the booklet originated in the Staff Employee Council (SEC) and is modeled after similar employee handbooks at UCSD and UCLA, according to Carol Copperud, SEC president. The publication will be updated annually.

Any employee who does not receive a copy of this free publication should write SEC, Box 210, Millberry Union.

**Henry R. Bourne, MD, has been appointed chair of the Department of Pharmacology in the School of Medicine,** effective August 1. He replaces Bertram Katzung, MD, PhD, who has been acting chair for the past three years.

Head of the Division of Clinical Pharmacology in the School of Medicine since 1980, Bourne does research on the molecular mechanisms by which hormones transmit their messages from outside to inside the cell—how the hormones "tickle" the cell to regulate the cell's normal internal functions.

Bourne obtained his MD from Johns Hopkins in 1965, and received his clinical training in internal medicine at Columbia Presbyterian Medical Center in New York and research training as a research associate in pharmacology at NIH. After two years of training at UCSF, he joined the faculty in 1971. He is a 1982 recipient of the Burroughs Wellcome Clinical Pharmacology Award, and in 1971 received a five-year American Heart Association Established Investigator Award.

Neal L. Benowitz, MD, an associate professor of Medicine, Clinical Pharmacology and Psychiatry at SFGH, will replace Bourne as head of the Division of Clinical Pharmacology.

**The Board of Governors of the Francis I. Proctor Foundation for Research in Ophthalmology and Chancellor Julius R. Krevans, MD, have accepted with great regret the resignation of G. Richard O'Connor, MD,** as director of the Foundation, effective June 30, 1984.

O'Connor, professor of Ophthalmology and an authority on toxoplasmosis in the eye, has served as director since 1970; the third director since the Foundation was founded in 1947. Under his leadership, the Foundation has become an international center for training and research in Ophthalmology.

A search for a new director is now under way.

**The graduating class of the School of Pharmacy has presented its "Outstanding Professor Award" to Linda Hart,** PharmD, associate clinical professor of Pharmacy, and director of UCSF's Drug Information Analysis Service, in recognition of her "excellence in teaching."

Hart was recognized for her enthusiasm and her ability to motivate students. All the senior students have taken courses in clinical pharmacy from Hart, and some had her as an instructor in drug information courses or as the leader of rounds among patients in Moffitt Hospital.

A graduate of the University of Kentucky, Hart was an assistant professor of Clinical Pharmacy at the University of Utah until 1979, when she came to UCSF. She was appointed director of the Drug Information Analysis Service in 1982.

**Two UCSF surgeons will be featured on segments of KQED-TV's *Lifeline* series in August.**

The segment on "Cardiac Surgery," featuring Paul A. Ebert, professor and chair, Surgery, will be televised on Channel 9 on Tuesday, August 23, at 9:20 p.m.

"Neurosurgery," with Charles B. Wilson, professor and chair, Neurological Surgery, will be shown on Tuesday, August 30, at 9 p.m.

The shows also will be seen respectively on Wednesdays, August 24 and 31, on KCSM-TV, Channel 60, at 8 p.m. and KTEH-TV, Channel 54, at 10 p.m.

The *Lifeline* series, produced several years ago for the NBC network, is an innovative program using real people and situations to tell the story of modern medicine.

**The Habit Abatement Clinic now is accepting individuals between the ages of 21 and 55, who do not have high blood pressure, heart or lung disease or ulcers, into their stop smoking program.** Women must not be pregnant.

The Clinic uses a behavioral approach including relaxation training and aversive smoking techniques, and a self-help approach which involves development of an individual plan to stop smoking. All patients use nicorette, a special gum designed to help the individual stop smoking. There is a $75 refundable deposit.

Two orientation meetings will be held on Wednesday, August 17, at noon and 6 p.m. in the Langley Porter Auditorium. For further information call x77-453.

**A research project aimed at clarifying the pathogenesis of classic immune thrombocytopenic purpura (ITP) is being conducted by the Cancer Research Institute.** The study requires splenic tissue or peripheral blood from affected patients. Physicians with ITP patients are asked to contact Raphael Stricker, MD, or Marc A. Shuman, MD, x2201 (days) or x1421 (evenings).

**The School of Medicine has formed a search committee to select a new associate dean for SFGH.** H. Barrie Fairley, MB, BS, vice chair and chief of Anesthesiology at SFGH, who has held the position for the past three years, has announced his resignation as dean at the end of the year to devote more time to academic work in anesthesia.

The search committee members are: Moses Grossman, MD, Pediatrics (chair); Cedric Bainton, MD, Anesthesiology, VAMC; Robert Jaffe, MD, Ob/Gyn and Reproductive Sciences; Merle Sande, MD, Medicine, SFGH; and Donald Trunkey, MD, Surgery, SFGH.

Anyone interested in making recommendations should write Moses Grossman, MD, Department of Pediatrics, Rm. 6E9, SFGH.

**Members of the UC Retirement System have elected Brian R. Hersh,** senior data processing coordinator, Education Abroad Program, UCSB, to serve a four-year term on the UCRS Board. The board advises the president on the administration of the UC retirement system.

Ballots were mailed to all UCRS members in June. Sixteen employees from the nine-campus UC system were candidates in the election to choose one of two representatives of non-Academic Senate members of UCRS. Kathy Johnson, benefits representative from Cooperative Extension, is the other representative serving the last year of her four-year term.

**Several faculty members from the School of Dentistry presented papers on the most up-to-date research in oral biology and dentistry,** including the role of microorganisms in the development of oral cancer, at the International Association for Dental Research Conference, August 1 to 3 in Sydney, Australia.

They were: Deborah Greenspan and Sol Silverman, Oral Medicine; Ernest Newbrun, Francine Lozada, Usha R. Maheshwari and Leonid Leybin, Oral Biology; Erica Migliorati, Periodontology; Harold C. Hodge, Pharmacology and Oral Biology; Malcolm D. Jendresen and Alton M. Lacy, Restorative Dentistry; and Penelope J. Leggott and Robert L. Boyd, Growth and Development.

John S. Greenspan, professor and chair, Division of Oral Biology, coordinated the presentations for the session and also delivered the keynote address on "Microbial Pathogenicity in Oral Soft Tissue Diseases" at the Ninth International Congress of Oral Biology, July 28 to 30, also in Sydney.
